# Deep Reinforcement Learning

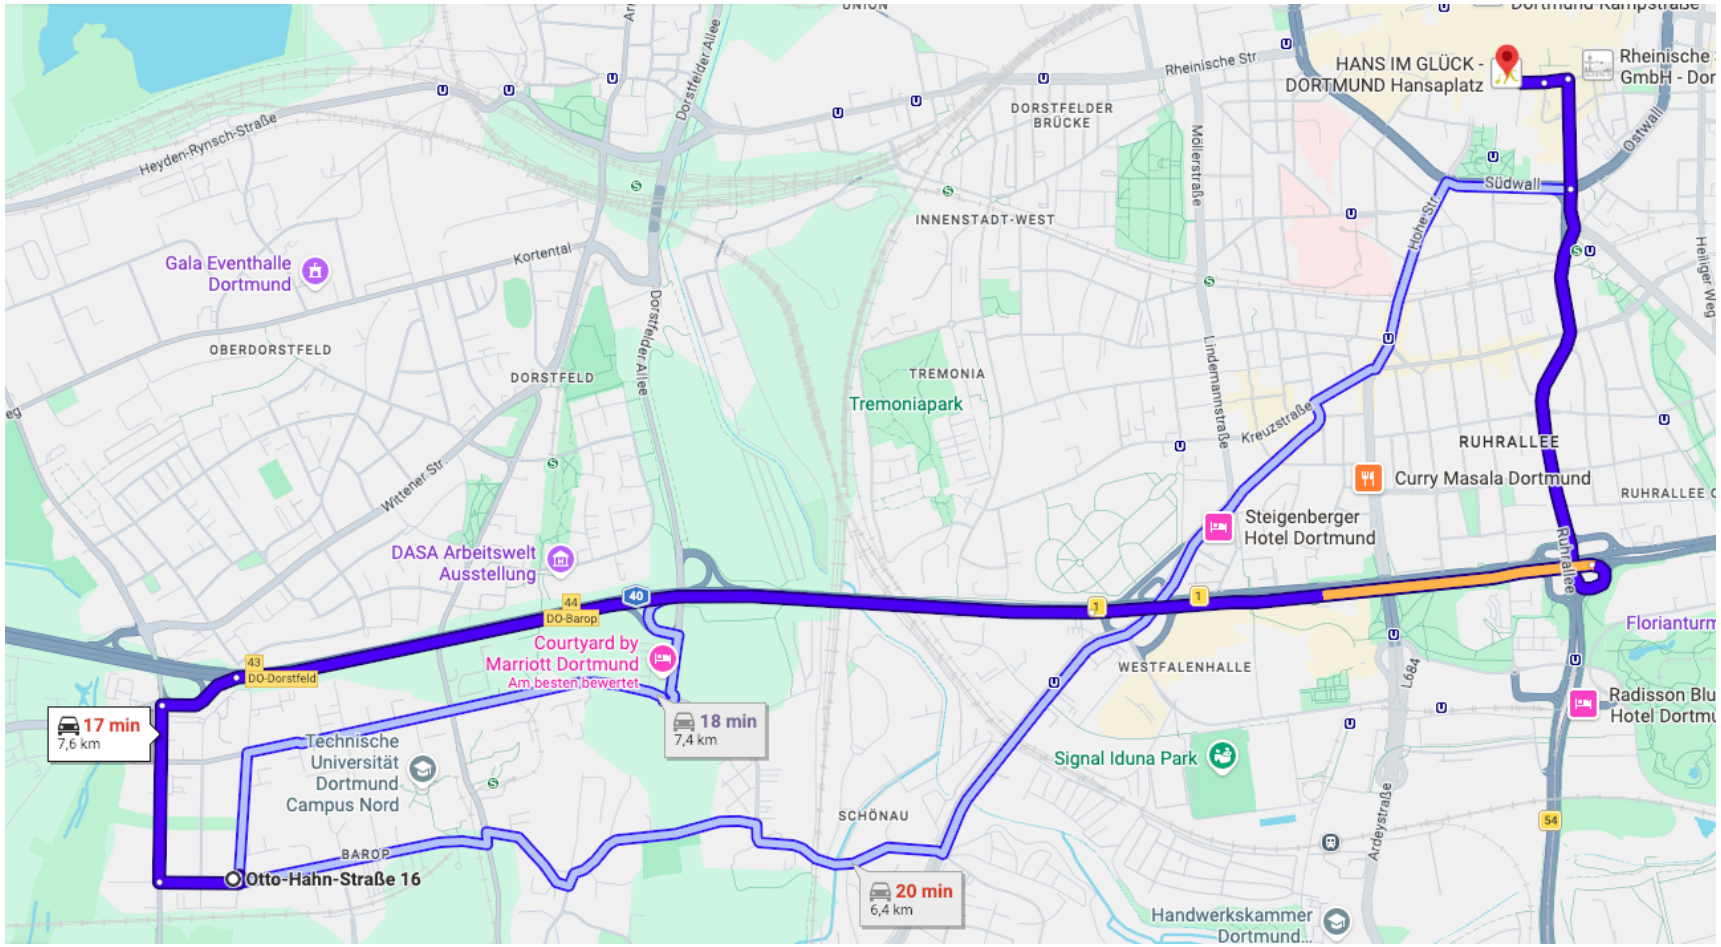
## *Multi-armed bandits*

Prof. Dr. Sebastian Peitz

Chair of Safe Autonomous Systems, TU Dortmund

Summer term 2026

# Example: Route planning (OH16 to Hansaplatz by car)



*Google Maps (go here for the live version; do you get the same numbers?)*

- Let's assume we do not have access to travel time estimates
- Which route should I take to minimize my travel time?
